

Take Two: Recycling Book Jackets

by | Susan P. Couture

Got Jackets to Spare?

In my library, I only use book jackets when book covers are plain. Otherwise, if the covers are printed with the jacket images, I store the jackets in a box. While a bunch of book jackets can always make for good bulletin board decorations, I decided to give my book jacket collections new life by using them to build learning library games for my students. The games described in this article can make great review activities for many of the skills that we librarians are constantly reinforcing—and they also serve to make students better aware of titles that are new to your library. Have fun!

Hints Before You Begin

- I usually have my students play the games when they are done with book check out, or during check out if they have forgotten their books and could not take out new ones that day.
- I place three different games in the student seating area each month. When you do this, check to be sure that you have introduced the library skills necessary for each game before you put the game out that reinforces those skills! I always introduce each separate game and model how it is played.
- After three months, I start switching out

the book jackets in each game, to keep the activity fresh. Even if I don't have enough jackets to switch out all of them, I try to change as many as I can so that students can repeat the game without already knowing the answers.

- Once every six weeks or so, we have Game Day. Game Day usually falls at a time at a point where some students need catch-up time when we are writing papers, or if they have been absent from library class. For students who don't need that time, every game that applies to the skills that we have covered comes out, and we all have a great time with them!

- As you put together the games:
 - Take the jackets in each game and place them in a marked file folder with the name of the name on each folder. This keeps the jackets together for each activity.
 - Direction cards are stapled or taped to the front of each folder. Extra cards needed for the activity are placed inside the folder with the book jackets.
 - Place the folders for each game in boxes (copy paper boxes work well).
 - Put half- and quarter-sheets of paper and a can of pencils next to each game box.

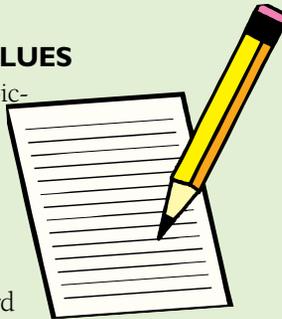

GAME I — FIND IT!

1. Gather all the book jackets that you have accumulated. Divide the number of jackets that you want to use into three groups: Fiction/Easy; Nonfiction, and Biography.
2. For each stack of covers, create a pile of paper scraps about 2"x3". (I use the back of recycled worksheets, cut into quarters.)
3. Laminate (if desired) old file folders, and marked them "Fiction," "Nonfiction," and "Biography."
4. Loosely tape the folders closed with masking tape.
5. Make a directions card to go with the stack of Easy covers. On it, write: "Easy Books. Use the jackets to record the call letters for each Easy Book on a scrap of paper. Then place the call letters in order as they would appear on the library shelves."
6. Make an answer key that shows how the shelf would look.
7. For an extension, write on the back of the card, "Take two or three of these scraps of paper where you have written call letters, and write down the corresponding title of the book on each. Now see if you can find that book on the shelf."
8. Repeat Step 5–6 for Biographies, with the directions card specifying Biographies in place of Easy Books.
9. For Nonfiction books, create two different charts of the Dewey Decimal system: one for fifth graders with each category divided up into ten sections (see page 4 for example), and the other for third and fourth graders featuring the ten categories and what kind of books are found in each category (see page 8 for example). On this card I wrote: "take a paper and figure out what the call numbers should be for each title, and the correct letters underneath. Two options for this activity: Place the papers in the correct order as they would be on the shelves, or write the title on the paper. Go to the shelves and see if you can find the matching title or one that would be closest to that title."
10. Create an answer key for both nonfiction charts.
11. Put the answer keys you have made in their appropriate folders.
12. Paper clip the directions cards to the appropriate file folder and put them in a copy paper box close to the student seating area.
13. Invite students to play and self-check each other!

Freebies, Doodads, & Helpful Hints

GAME 2 — JACKET CLUES

1. Pull together several picture book jackets that have characters on the front and clearly-written flap copy.
2. Create a directions card that says, "Write down the author, illustrator, and title of each book. Identify who you think is the main character in the story. Directions for extension of for grades 4-6: Read both flaps of the book jacket and identify the setting and the problem in the story."

GAME 3 — FICTION, NONFICTION, AND BIOGRAPHIES

1. Make a set of book jackets that is a mix of fiction, nonfiction, and biographies. Label and laminate 3 cards with those terms—one on each card.
2. Create a directions card that says, "Take the book jackets and place them in each category that appears on the laminated cards." (You can create a quick answer key for this if you wish. An easier version for your younger students would be to just have students divide the jackets into two categories: fiction and nonfiction.)

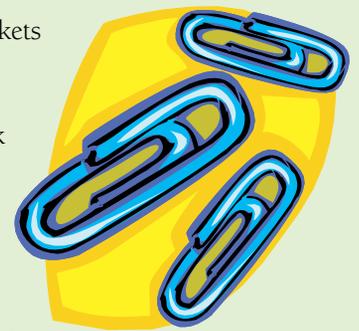

GAME 4 — GENRES

1. Collect book jackets of different genres. You might include Fantasy, Historical Fiction, Sports Fiction, and Science Fiction. Label and laminate cards with those terms written on them (one genre per card).
2. Create a directions card that says, "Place each book jacket next to the card labeled with the book's genre."
3. If desired, make an answer key for this game by placing a laminated genre card labeled with the correct genre inside each book jacket.

GAME 5 — GENRES

1. Place a series of book jackets into a file folder.
2. Create a directions card that says, "Take one book jacket to the OPAC computer. Type in the author or title. Write down the call number and title. Take your Call slip to the shelves to see if you can locate the book on the shelves."

Susan Couture lives in Beach Lake, PA and has over thirty years experience as a school library media specialist. She has also served as a children's librarian at her local public library branch, and taught at the graduate level to teachers becoming librarians. In her spare time, she writes stories for children and helpful tips for librarians and teachers. Visit her blog at organizedlibrarian.blogspot.com, or email her at shadylanewriter@yahoo.com.
